ABOUT ME

An enthusiastic and ambitious developer with a passion for innovative solutions. I have experience working with modern web technologies. Currently, I am pursuing my bachelor's in Computer Science, and am looking for internships to get work experience.

WORK EXPERIENCE

2020/12/01 – 2024/10/01 Jönköping, Sweden

Freelance developer Cybersaurus AB

The beginning of my software development career.

- Designed and developed websites using WordPress, HTML/CSS, and JavaScript.
- Expanded my skills by building web applications with ReactJS, NodeJS, and MySQL.
- Researched and explored technologies, frameworks, software patterns, and programming tools.
- Worked in an agile environment like Scrum and Kanban workflows using Jira.

2023/05/01 – 2023/06/01 Jönköping, Sweden

Software developer Forefront Consulting AB

- Developed and migrated legacy web features of the Pitch Planning scheduling application to a mobile platform using React Native, TypeScript, and Redux

2022/12/01 – 2023/03/01 Jönköping, Sweden

Front-end developer Zmarta AB

- Developed and tested new features for Elskling electricity comparison application using VueJS and GraphQL in collaboration with a UX/UI designer.
- Upgraded old publications with new ones using Contentful in collaboration with content writers.
- Added A/B experiments and feature flags using Optimizely to optimize UX.
- Utilized Storybook for testing and documenting UI components.
- Worked with CI/CD pipelines for automated deployments.

EDUCATION AND TRAINING

2023/08/01 – CURRENT Jönköping, Sweden

Computer Science – Software Development and Mobile Platforms Jönköping School of Engineering
